

ACCUSPLIT® S3MAGT SURVIVOR™ COUNTDOWN TIMER

OPERATING INSTRUCTIONS

“SLEEP” MODE

The timer display will turn off automatically when idle (after 10 minutes). Press DISPLAY ON (middle button) to turn display back on.

SETTING TIME INTERVAL

- Press and hold both MIN and SEC buttons at the same time, for three seconds, to reset the countdown interval back to zero (Two Button Reset).
- If the unit is in Count UP mode, press and hold START-STOP button for three seconds to reset back to current countdown interval. Then, do as above to reset the countdown interval.

SETTING COUNTDOWN TIMER

- Enter Minutes by pressing MIN button in one min. increments (0-99).
- Enter Seconds by pressing SEC button in one sec. increments (0-59).
- Repeat as necessary.

STARTING AND STOPPING COUNTDOWN FUNCTION

- Press the START-STOP button to START the countdown timer.
- Press the START-STOP button to STOP the countdown timer.

PRE ALARMS

- When countdown time reaches 5 minutes, the timer will alarm once.
- When countdown time reaches 3 minutes, the timer will alarm twice.

TIME'S UP

- At zero time remaining, the audible alarm will sound, and the unit will begin counting UP. Press any button to STOP the beeping, stop the Count Up, and also reset the unit back to previous time interval set.

COUNT-UP FUNCTION

After reaching 00:00 in Count DOWN mode, the unit will begin COUNTING UP, while alarm sounds. During the first 30 seconds of Count UP, pressing any button STOPS the Counter and RESETS the unit back to the original countdown interval. AFTER 30 seconds, alarm will stop, but unit will continue to Count UP until it reaches 20 minutes.

During extended Count Up,

- Press the START-STOP button to START or STOP count-up.
- Press and hold the START-STOP button for three seconds to RESET the countdown timer back to Count DOWN mode, and original countdown timing interval.

PRODUCT SPECIFICATIONS

Operating Temperature:
14°F-138°F (-10°C-59°C)

Battery:

- When LCD Display becomes dim, replace battery with LR-43 or equivalent.
- 18-Month Circuit Battery Life (reduced dependent on extensive alarm usage).
